Re: PKD Properties PPU Transfer

Dear Mr. Merritt:

PKD Properties desires to create a permissible place of use (PPU) and redefine the place of use of water rights or portions of water rights 45-597, 45-622B, 45-674, 45-14218, 45-14219, 45-14220, 45-14221, 45-14222, 45-14223, 45-88, 45-14144, 45-14156, 45-14157 and 45-14158.

A total of 109.0 acres of water rights 45-14218, 45-14220 and 45-14220 will be changing ownership from Howard and Karen Robinson to PKD Properties. Water right 45-622B will be changing ownership from D & N Ranch LLC to PKD properties. 250

It is proposed that a total of 28.32 cfs will be allowed to be diverted within this PPU. A total of 1091.5 acres will be able to be irrigated. The amount of acres irrigated under the water rights from Mill Creek will be reduced to 1091.5 acres. Ground water rights will be able to irrigate 514.2 acres within the 1091.5 acres. There will be a total of four points of diversion for this PPU which consists of three developed ground water wells and one existing diversion structure in Mill Creek.

The period of use and beneficial use of these water rights will not be changing with this transfer.

There are two concurrent transfers being submitted to IDWR at the same time as this transfer application involving these same water rights. All three transfers will need to be processed simultaneously.
