Jeanie,
This looks like one you are working on. Please review.
Allen

Allen:

While reviewing transfers I discovered what appears to be a clerical error in transfer 77711 (John Beukers). The transfer seeks to change points of diversion and add diversion points. Before the transfer three of the existing points of diversions were described in the following legal land descriptions:

SWSWSW, S12, T12S, R20E (private)
SWSESE, S13, T12S, R20E (private)
SWSESE, S13, T12S, R20E (private)

As a result of the transfer these three points of diversion will be described in the legal land descriptions listed below. It appears that a clerical error occurred, and the Claimant erroneously described the points of diversion that were listed previously in R20E in R21E. According to attachment 7a (map), it appears that the Claimant intended to claim the PODs in R20E. It appears as if the Claimant may have also committed a typographical error when describing the quarter quarters in S13. The transfer proposes to change the quarter quarters from the SWSESE to the SWSWSE. Attachment 7a (Map) shows that the PODs in S13 are still located in the SWSESE, not the SWSWSE. The Claimant and IDWR may want to verify which of these legal land descriptions is correct.

SWSWSW, S12, T12S, R21E (private)
SWSWSE, S13, T12S, R21E (private)
SWSWSE, S13, T12S, R21E (private)
