Danni,

I looked at those 2 water rights and others associated with it, but cannot recollect my association with them. I checked with Dave and Norm too; they do not remember our connection. If there was a connection, it is not a current one. Please remove our name(s) from the list.

Water Right 36-2303 and 15178. IDWR records indicate you are still a rep on these records. But, Original Owner is Mecham Inc and Previous owners were Mike and Whendy Standlee. New Owner is Stnadlee Family Ltd Partnership. Assume you were the rep on one of the old owners, but want to be sure. I just finished a Security Interest on these decreed writes. Can you let me know if you are still the active rep or if not will you send me an e-mail stating you are no longer involved with the rights? Thanks
