RE: Water Right Permit No. 63-11934

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water in 1997 reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 x Place(s) of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license if and when it is issued.

I realize that the use of lands has changed since the field examiner visited your property in 1997 and that this permit may no longer be applicable. If you wish to relinquish the permit, I have enclosed a relinquishment form for your use. If you wish to proceed with the licensure of the right please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
