Subject: Re: George Colwell 65-22948, clarification condition

I think it's good - it gets the point across - better and less wordy than my proposal too. I would just change the word "is" in the first sentence to "are."

Thank you,
Dana

Dana,

I reviewed your suggestions with Craig Saxton and Shelley Keen, and here is the clarification condition that we derived:

"The annual diversion rate and volume identified for this right is the rate and volume of water that can be consumed by the stock. This right shall not otherwise limit the rate and volume of water that may flow in the unnamed drain."

Please let me know if you approve of this condition, so I can proceed with the licensing process for water right 65-22948 Colwell, and the other six similar water rights.

Thank you,

Sandy and Craig:

Here are a couple of proposed clarifying remarks:

The annual diversion volume identified for this right is the annual volume of water that can be consumed by the stock. This annual diversion volume shall not limit the quantity of water that may be diverted into the unnamed

drain.

The diversion rate identified for this right was determined by averaging flows in the unnamed drain during the non-irrigation season. (Or - replace this first sentence with the following: The diversion rate identified for this right is the rate that the stock can consume water from the drain.) This diversion rate shall not limit the amount or rate of water that may flow in the unnamed drain.

Please let me know what you think of these proposals, thank you,
Dana

Dana,

To review our phone conversation this morning, we are looking forward to receiving your input for the condition you are suggesting that should be added to the license for this water right (65-22948), and the other 6 similar water rights that involve stockwater from unnamed drains.

Thank you,

Sandy Hemenway

Dana,

Craig and I are both available on Thursday morning only from 9:00 – 11:00. What time would you like to reschedule the phone conference?

Sandy:

I was detained at Legislative Services - can we reschedule until later in the week (after tomorrow) when my trial is over?

Thank you,
Dana

Dana,

We made three (3) calls to your office (424-7800) , without contacting you directly. We will be proceeding with the Licensing process.

Sincerely,

Sandy Hemenway

Dana,

As per our phone conversation today, we will be calling you tomorrow at 3:00 pm to discuss water right 65-22948 Colwell.

Thanks,

Sandy Hemenway

Importance: High

Dana,

I left a message at your work **number (424-7800)**. I was wondering if we could have a phone conference tomorrow 2/7/2012, 3:00 – 4:00pm, since that seems to be a good time for both of us, and for getting a conference room to talk about George Colwell's volume issues?
