RE: Water Right Permit No. 22-13178

Dear Permit Holder(s):

The Department of Water Resources previously sent you an application for amendment for the purpose of licensing permit 22-13178. The Department mistakenly listed the legal description of one of the points of diversion. In addition, during our recent field visit, the Department measured the maximum diversion rate of both diversions and found the diversion rate was greater than originally thought. The new amendment reflects the new rate of diversion.

Unfortunately, the Department needs to apprehend a new amendment form that correctly lists all aspects on the permit. By signing and returning the enclosed Application for Amendment form, the Department will assume that you agree with our findings and wish to withdrawal the amendment forms that you had originally signed. I have enclosed the original amendment for your reference. The amendment fee has already been paid and no additional fee is due.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
