RE: 63-33592 APPLICATION FOR PERMIT

COPY

Dear Sir

I have been assigned the application for permit for review prior to advertising. Although a \$250.00 fee has been paid, the application for permit was not signed. Before the application can move forward it must be signed by a representative for the corporation.

As a part of the review process I noted that the application was for 0.89 cfs for the irrigation of 76 acres. It appears that the intent of the permit was to add an additional 4 acres to the irrigated system currently covered by 63-33596 (0.87 cfs for 70 acres) and possibly 63-33595 (0.02 cfs for 2 acres Greg Alger). If the pumping system is not being changed, you would actually only be adding the 4 acres @ a maximum of 0.08 cfs. If this is the case, then the application could be amended to reflect those values and the application fee would only be \$100.00 leaving \$150.00 available for refund.

Additional information could change the analysis and ultimately the elements of the application therefore I would like to meet with you sometime this month to resolve the outstanding issues so that the application can move forward to a permit and ultimately a licensed right. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the application process in greater detail. You may also reach me by e-mail at the address shown below.

Sincerely
