RE: 63-11693 PERMIT SUBJECT TO LICENSING

Dear Ed

The clip to the right shows an aerial view of the permitted Place of Use (POU). The permit was approved for the irrigation of 80 acres from a ground water source (well).

The next step in the process toward licensing the permit is for the department to verify to what extent the elements of that permit have been met. I have tentatively outlined what appears to be the irrigated POU which is closer to 71 acres with a small portion outside of the permitted POU. This needs to be addressed but should not be a significant problem.

You can reach me at 208-334-2190 (ask for Kelly) and we can discuss the permit and the licensing process in greater detail.

You may also reach me by e-mail at kelly.christensen@idwr.idaho.gov

Sincerely

Kelly K Christensen
Sr Water Resource Agent
Western Region
