**Subject: *Applications (3) to Lease Water to the Water Supply Bank
Crane Creek Country Club, Inc.***

Dear Monica,

Crane Creek Country Club, Inc. is currently authorized to irrigate a common 114.8-acre place of use under water rights 63-3108, 63-32114 and 63-32115. As shown on the attached GIS photo, only 87.4 acres are currently being irrigated. Applicants recently acquired adjoining land and wish to irrigate 13 "new" acres resulting in submittal of a transfer application (copy attached). The associated water rights were decreed in 2007. To prevent risk of potential forfeiture, water bank lease applications for each right are being submitted for processing. As we discussed on the telephone, please delay leasing out 13 of the submitted acres for one year or until the transfer application is approved.

Check No. 36472 is enclosed for the \$500 filing fee.

Please let me know if there are any questions. Thanks Monica.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lori Graves".
