RE: Dry Creek Partners- Amended Water Right Transfer Application.

Dear Corey,

Per your request, attached is an amended water right transfer application in the name of Dry Creek Partners. The application reduces the area of the pond associated with the wildlife and aesthetic storage uses from 5 acres, to 4 acres. This allows 1 additional acre to be irrigated in T.05S R.14E SEC 3, NWSE. It is our understanding through conversations with yourself and Jeanie Robertson that with the transfer amendments to pond size, the addition of wildlife and aesthetic storage uses, changes to nature of use flow rates and volumes and a new map, processing of this water right transfer application may continue. No additional fee has been included as the total flow rate and volume associated with the application have not changed.

Please copy our office on all correspondence regarding this water right transfer application. Don't hesitate to call our office should you have any further questions or comments. Thanks for your time and assistance on this matter.

CHARLES E.
BROCKWAY,
PH.D., P.E.
