RE: Field Examination Schedule

Dear Dr. MacGregor:

Sandy Hemenway, a senior water resource agent of the Department, and I are preparing to visit your property near Cascade to conduct a field examination for permit 65-13912. During my review of permit 65-13912, I noticed that you have seven permits total that are awaiting field examinations. Five of the permits are in the vicinity of one another and can be examined during our visit on October 3, 2011:

Permit #	Source of Water	Tributary	Beneficial Use as Permitted
65-13978	Spring aka Janelle Spring	Moores Creek	Domestic use for 1 home and a shop
65-13912	Spring	Moores Creek	Heating and Commercial use for spas and pools
65-13903	Unnamed Stream aka Janelle Spring	Moores Creek	Stockwater of 150 cattle and Irrigation of 30 acres
65-13905	Spring	Moores Creek	Domestic use for 1 home
65-13986	Groundwater	NA	Irrigation of 132 acres

In addition, field examinations for the following two permits can be completed after we leave Cascade later that day. The two rights are in Gem County, near Black Canyon Reservoir:

Permit #	Source of Water	Tributary	Beneficial Use as Permitted
65-22707	Spring	Sinks	Stockwater of 150 cattle and 30 horses
65-23115	Spring	Sinks	Stockwater of 150 cattle and 30 horses

We would like to maximize our resources and time in the field, so I hope that we can pack all seven field examinations in one day. Sandy and I will be leaving Boise at 9am on October 3rd and expect to be at your Cascade property by 11am. We will complete the field examination for 65-13912 first since the Pancheris will be attending the examination. We should be finished with all examinations at the Cascade property around 3pm. From there we hope to visit the place of use for permits 65-22707 and 65-23115. Your presence is not required at the field examination for those rights unless the place of use and point of diversion are inaccessible and a guide is necessary.

I appreciate your willingness to work with us and look forward to hearing what you think about accomplishing all field examinations for your rights on October 3, 2011.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
