I've added them to our list. Let me know if you come across any others.

Hey James,

I have 4 files that I was hoping you could put on the list for field exams during the next field season. These 4 came to my attention due to the push to clean up the change of ownership/assignment of permit backlog. For each of these files, the owner of the property for the permitted POU cannot get an assignment of permit from the original permit holder, and we can't process a change of ownership until a field exam is done and we verify that the water right has been developed on the permitted place of use. So the plan is to change ownership at licensing. However, we can't license these without a field exam.

So, if you could put it on your list, that would be great.

Please let me know if that won't work out or if you need anything from me.

Thanks,
Craig
