WATER RESOURCES
WESTERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of IdahoIdent. No. 63-335451. Name of applicant(s) Daniel / Emily McLeran Phone 208-941-0647
Name connector (check one): ☐ and ☐ or ☐ and/orMailing address: 2850 1st Lane East City ParmaState ID Zip 83660 Email: drillerdan@gmail.com2. Source of water supply Ground Water which is a tributary of N/A

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
.5N	3W	35	4	SW	SW	SW	Canyon	Well	

4. Water will be used for the following purposes:

Amount .15 for Irrigation purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) .15 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Will be installing a well. The well will be pulling its water from depths of 150' to 250'

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ Noc. Proposed well diameter is 8" inches; proposed depth of well is max 250' feet.d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ Noe. If well is already drilled, when? N/A; drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households 1 house may be used on this well

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
5N	3W	35											5						5

Total number of acres to be irrigated: 5

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? There is a non deliverable surface water right from black canyon irrigation. The water from the right I am requesting will be used for irrigation and domestic usage.
10. a. Who owns the property at the point of diversion? Daniel & Emily McLeran
- b. Who owns the land to be irrigated or place of use? same
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. I have a surface water irrigation right coming from Black Canyon Irrigation. However the water source is on the neighboring property to the north. The water is undeliverable and has not been used since they removed the ditch near 10 years ago. My proposal is to install a well that will have sufficient water to take the place of these rights and then transfer the surface rights to a different property.
12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Re: Application for Permit No. 63-33545

Dear Applicant:

This office received your Application for Permit seeking a water right. Upon review of your application, it appears there are existing service water rights for irrigation associated with the property upon which you propose to use ground water for irrigation. It is Department policy to condition use of ground water for supplemental use only when surface water is available for irrigation purposes. Your application indicates the surface water is undeliverable, i.e. not reasonably accessible for use on your property. Considering the surface water rights associated with your property belong to an irrigation district (Black Canyon Irrigation District), it is not appropriate for the Department to request you remove the surface water rights from your property before you establish primary ground water irrigation use, as the Department may typically do for personal surface water rights or rights of irrigation companies (shares).

To address this unusual situation and conform to Department policies, I propose the following condition be applied to your permit:

The right holder shall make full beneficial use of all surface water rights available and reasonably accessible to the right holder for irrigation of the lands authorized to be irrigated under this right.

The right holder shall limit diversion of ground water under this right to those times when the surface water supply is not available and reasonably accessible or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

This condition will allow for primary use of ground water under this permit, but if surface water becomes available and reasonably accessible in the future then this ground water permit may only be used to supplement the surface water.

If you are opposed to the condition of use proposed above for your application, you may submit a request to withdrawal your application (form enclosed) and refund the filing fee within thirty (30) days of this from the date of this mailing. If I do not receive a response from you, I will presume you understand the condition of use for your permit and continue processing your application accordingly. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm, P.G.
Water Resource Agent, Sr.
