Ms. Robertson,

Please consider this letter as a request for **Petition for Reconsideration** on the Rejection Order for Transfer 78047. I was out of town for the holidays and did not pick-up the certified copy of the Preliminary Order until I returned after Christmas. I apologize for not responding to your earlier requests for information but after the passing of my husband last June, there were many matters that needed to be dealt with and with which I was not familiar. He always handled the water rights on the ranch, and I was a bit overwhelmed. I would like to proceed with this transfer as I realize we need to straighten out our water rights on the property we retained after the sale of several parcels of land.
