Dear Mr. Merritt:

Enclosed is a copy of the 'Notice of Realty Action' we have issued for a land sale in the Challis Field Office. The sale is identified as IDI-27239 and IDI-32131 and proposes to dispose of a total of 8.09 acres of public land through a direct sale to Wayne and Melodie Baker of Clayton, Idaho. All of the land is located within Custer County, Boise Meridian. The sale would be made under the authority of Section 203 of the Federal Land Policy and Management Act (FLPMA) of 1976, as amended through September 1999. The proposed disposal is in conformance with the Challis Resource Management Plan approved July 1999.

The Bureau of Land Management is required by regulation to inform you of these actions and provide you a 45 day comment period from the day of the receipt of this notice. If you have any comments, please send them to the above address.

Sincerely,

David Rosenkrance

3.07 What Will Happen if a Bidder Requests Less Than Its Apportioned Amount?

Any bidder requesting less than the calculated apportioned volume will receive the amount of its request and

amounts remaining will be reapportioned in accordance with part 3.05 in this Notice.

3.08 Do You Have a Hypothetical Example of How a Non-Allocated Sale Would Be Conducted?

525 MMcf available for total sale with 10 percent available for Non-Allocated Sale (52,500 Mcf).

Bidder—non-allocated sale	Bid volume*	Appointed volume*	Excess volume requested*	Proration percent	Excess apportioned*	Total apportioned*	Amount requested not received*
Refiner C	17,500	13,125	4,375	50%	3,750	16,875	625
Company D	25,000	13,125	11,875	50%	3,750	16,875	8,125
Company E	12,500	12,500	0	0%	0	12,500	0
Company F	6,250	6,250	0	0%	0	6,250	0
Total	61,250	45,000	16,250	100%	7,500	52,500	8,750

*All volumes in MMcf.

In this example, three companies submit a request and there is a carryover amount from one of the Crude Helium Refiners in the Allocated Sale that is considered as a separate request. Each bidder would be apportioned 13,125 Mcf, (i.e., 52,500 Mcf of Non-Allocated Conservation Helium 4 ÷ bidders = 13,125 Mcf per bidder).

After the initial allocation, Companies E and F have received all the helium they requested. However, 7,500 Mcf is deemed excess in the first iteration of the Non-Allocated Sale and reallocated to the two remaining bidders. With the reallocation, Refiner C and Company D each receives an additional 3,750 Mcf. No more helium is available, Refiner C and Company D do not receive all that they requested, and the sale is complete. All percentages used in the calculation will be rounded to the nearest 1/10th of 1 percent. All volumes calculated will be rounded to the nearest 1 Mcf.

Linda S.C. Rundell,
State Director, New Mexico.

SUPPLEMENTARY INFORMATION: The following described public land in Custer County, Idaho has been determined to be suitable for sale at not less than fair market value under sections 203 and 209 of the Federal Land Policy and Management Act of 1976, as amended (90 Stat. 2750, 43 U.S.C. 1713 and 1719). It has been determined that this land is difficult to economically manage as part of the public lands. It has been determined that resource values will not be affected by the disposal of these two parcels of public land. Both parcels are identified for disposal in the Challis Resource Management Plan (1999). In accordance with 43 CFR 2711.3-3(a)(5), these two parcels are being offered by direct (non-competitive) sale to Wayne and Melodie Baker of Clayton, Idaho, based on the need to resolve inadvertent unauthorized historic use and occupancy and the value of added improvements. One of the parcels of public land has been fenced in with the private land for many years and used for livestock grazing and hay production.

The second parcel of public land has been used for many years as a homesite for hired help, storage area for equipment, and contains a root cellar and storage shed. Failure or refusal by Wayne and Melodie Baker to submit the required fair market appraisal amount within 180 days of the sale of the land will constitute a waiver of this preference consideration and this land may be offered for sale on a competitive or modified competitive basis.

The parcels are described as follows:

Boise Meridian, Idaho

Section 32, SW 1/4 SW 1/4 NW 1/4 SE 1/4,
SE 1/4 SE 1/4 NE 1/4 SW 1/4.

The area described (IDI-27239) contains 5.0 acres, more or less. The fair market value for this land utilizing direct sales procedures, at not less than the current appraised fair market value, is determined to be \$9,600.00.

The patent, when issued, will contain a reservation to the United States for ditches and canals under the Act of March 30, 1890. The patent, when issued, will be made subject to the following existing rights of record:

Boise Meridian, Idaho

T. 11 N., R. 18 E.,
Section 35, lot 5 (NE 1/4 SE 1/4 SW 1/4).

The area described (IDI-32131) contains 3.09 acres, more or less. The fair market value for this land utilizing direct sales procedures, at not less than the current appraised fair market value is determined to be \$5,000.00.

The patent, when issued, will contain a reservation to the United States for ditches and canals under the Act of March 30, 1890. The patent, when issued, will be made subject to the following existing rights of record:

1. IDI-20147—Those rights held by Custer County, its successors or assigns, for an existing road exercised under RS2477 and noted under BLM Serial Number IDI-20147.

2. IDI-16925—Those rights for a telephone line granted to Custer Telephone Cooperative, Inc., its successors or assigns, pursuant to the Act of October 21, 1976 (43 U.S.C. 1761).

Continued use of the land by valid right-of-way holders is proper subject to the terms and conditions of the grant. Administrative responsibility previously held by the United States will be assumed by the patentee.

It has been determined that the subject parcels contain no known mineral values; therefore, mineral interests will be conveyed simultaneously. A separate non-refundable filing fee of \$100.00 total for both parcels is required from the purchasers for conveyance of the mineral interests.

Upon publication of this notice in the **Federal Register**, the land described above will be segregated from appropriation under the public land laws, including the general mining laws. The segregation will end upon issuance of patent or 270 days from the date of publication, whichever occurs first.

The land will not be offered for sale until at least 60 days after the date of publication of this notice in the **Federal Register**.
