1. Place of use for irrigation use is located within Lots 6-9 and portion of Lower Landing Strip, HES 701, Copenhaver Subdivision.
2. Place of use for domestic use is located within Lots 6-8, HES 701, Copenhaver Subdivision.
3. Domestic use is for 3 homes and does not include lawn, garden, landscape, or other types of irrigation.

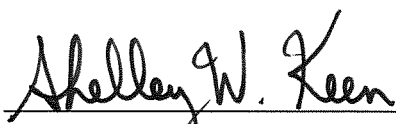

State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 77-14327

4. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
5. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
6. Upon specific notification by the Department, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion, in accordance with Department specifications.
7. The right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.
8. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
9. The right holder shall maintain a lockable device, subject to the approval of the Department, in a manner that will provide suitable control of the diversion.
10. The right holder shall maintain a straight length of conduit or ditch suitable for installation of a device for measuring the entire flow of water being diverted in connection with this right. If the right holder uses conduit, the straight length of conduit shall be at least ten times the diameter of the conduit and shall be above ground or otherwise easily accessible.
11. This right does not grant any right-of-way or easement across the land of another.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

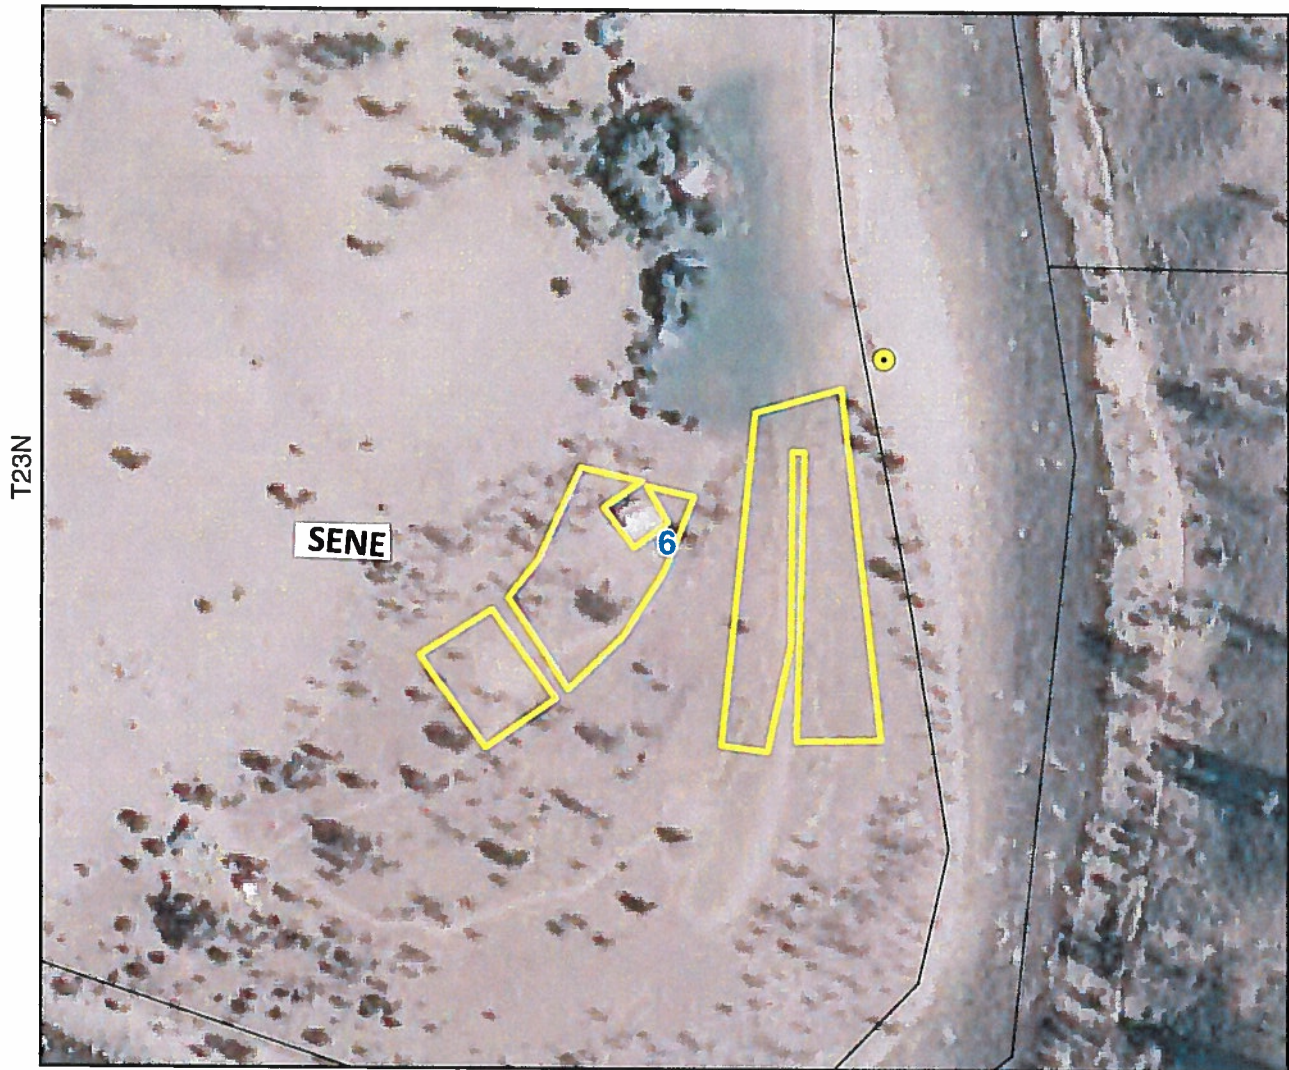

Signed this 19th day of January, 2012.
