Subject: Water Right Permit No 29-08110 and 29-08130

Dave,

I am on the board for the Tyhee Estates Water Co.. The board has asked that I contact you with the following information. Several of the board members have reviewed your recent correspondence regarding the two water right permits in the subject line. We concur with the information and are in the process of submitting the requested filing fee. We do have an inquiry regarding our other two water right permits (nos. 29-7549 and 29-10805). Do these two permits indicate the same points of diversion description as the others are being changed to? These water rights are being utilized in the same fashion as those currently receiving action. If it is appropriate and has not been done we would like a similar action on these as well. Please advise. Also, I understand that your correspondence was mailed to 13234 N. Billy Lane (Dale Higgins). Dale is no longer on the board and we would like to request that future correspondence be mailed to Russ Szelmezcza at 13319 N. Billy Lane, Pocatello, Idaho 83202 who is our current Water Board President. As an alternate you may send mailings to the person that the monthly usage cards are being mailed to. Please confirm receipt of this information and advise if further information is required from the board.

Regards,

Jeff Choules.
