RE: Permit No. 65-23351

In 2009 I submitted an application to appropriate irrigation water from Payette Lake for the Jeffry & Kris Stoddard Living Trust. In July 2010 a Permit Approval Notice was received for permit # 65-23351. On 10/8/10, a Statement of Completion for Submitting Proof of Beneficial Use was mailed to your department. It was my understanding at the time that we were waiting for an inspection of the lockable diversion control device by the Watermaster before the Permit could be finalized. To my knowledge, this inspection has not been made and no final water right has been issued. Would you please update me as to where we stand in obtaining this Water Right.

Andrew Laidlaw, architect & agent
