Subject: Place of use 13-7057

Kay,
While working on another water right I could not determine the place of use for 13-7057 so I looked in the microfiche. The map is not very good but from what I could see it appears that the place of use is incorrect in Sec 6, T12S, R41E. I drew what appeared to be on the map as ground irrigated by 13-7057. Could you look at the vault file to determine exactly what the place of use actually is?

137057pou.shx

137057pou.dbf

Is the place of use in the N1/2NE1/4, and W1/2NW1/4 Sec 6, and not also in the NENW Sec 6?

Thanks
Keith

Subject: License 13-7057

Hi, Keith... Got your message about this license and you are quite right. The place of use is licensed in error. The lands shown in T12S, R41E, S06 should be shown as this:

NWNE - 2 ACRES
NENW-19 ACRES
NWNW- 35 ACRES
SWNW - 2 ACRES

I have made a correction to the shape you created so that it matches the land identified on the map. Attaching the corrected shape for you to see what the map shows.

Are you dealing with the holder of this right? Can you ask him to submit a written request for us to make a correction to this license? In past, we cannot just make corrections

137057pou.shx

137057.apr

without at least a written request from the right holder.
