

MEMORANDUM

Date: January 12, 2012
To: Water Right File 71-7122
From: cpalmer
Re: Licensing Memo

There are no overlapping rights for the point of diversion and place of use. The field examiner only found wildlife storage and she recommended to drop the wildlife from storage component of the right. The right holder only applied for just enough water to be contained in the ditches. There is not enough volume to cover any seepage and/or evaporative losses. These networks of ditches are considered on stream storage. The right falls within sub district 71.
