Re: Evaluation of Sufficiency of Information Submitted

Application proposes adding an addition tract to the authorized place of use of water right 47-17205 to reflect an additional stock water trough that is tied into the stock water system located southwest of Roseworth. Note that the right and applicant is Brackett Ranches and the proposed place of use is BLM land. The BLM has authorized the transfer (see 1/10/2012 letter from Fred Price of the BLM). The application only proposes adding an additional stock water trough location (slight change in POU only) in a remote area. No hydrological impacts are anticipated so it is recommended that this application be processed and approved without any public notice advertising.

- **Authority to File:**
The applicant is listed as the current owner of record for the right being transferred. The BLM has authorized the transfer.
- **Water Right Validity:**
The right involved with the transfer was decreed in the SRBA in December of 2011.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
