Gentlemen:

As you may recall IDWR earlier this year approved permit 37-22597 for development of a pond on Payne Creek. As a condition of approval of the permit the mitigation plan for drying up 3.5 acres within the SWSE Section 16, T01N, R23E was accepted. Pursuant to the condition, certain water right records were to be modified to incorporate the mitigation plan into the record once the rights were partially decreed in the SRBA. Earlier this month the rights were decreed so our office has recently modified the records.

Please find enclosed proof reports of the records modified. Please look them over and if you have questions please contact this office.

Respectfully,

Allen Merritt, PE  
Southern Region Manager
