Re: Trust Water Term Review for Water Right No. 57-7419

Dear Water Right Owner:

Water right records of the Idaho Department of Water Resources indicate that you are the owner, represent the owner, or have a security interest in a water right or permit based on an appropriation of "trust water" pursuant to Section 42-203C, Idaho Code (see <http://www.legislature.idaho.gov/idstat/Title42/T42CH2SECT42-203C.htm>). Trust water consists of flows of water in the Snake River and its surface and ground water tributaries between Swan Falls Dam and Milner Dam that are in excess of the minimum stream flows established at the Murphy U.S.G.S. gauging station on the Snake River.

If you are the owner or a water right permit subject to a stay in development by order of the Department, or if your permit has not been developed for other reasons, this letter does not change the status of your permit and the term review described in this letter will still apply.
