Section 42-203C, Idaho Code. ¹

The Department will contact you when review of your right is to begin. The Department does not anticipate beginning reevaluation until after the Snake River Basin Adjudication workload and other priorities are mostly completed. At that time, you will be asked to provide information expressing your intent to continue the beneficial use of trust water and other information providing details of the status of your water right.

¹ If you are the owner of a water right permit subject to a stay in development by order of the Department, or if your permit has not been developed for other reasons, this letter does not change the status of your permit and the term review described in this letter will still apply.
