Subject: Field Examination for 10/3/11

Hello Carol,
Here are the water rights that we hope to complete on Monday:

Permit #	Source of Water	Tributary	Beneficial Use as Permitted
65-13978	Spring aka Janelle Spring	Moores Creek	Domestic use for 1 home and a shop
65-13912	Spring	Moores Creek	Heating and Commercial use for spas and pools
65-13903	Unnamed Stream aka Janelle Spring	Moores Creek	Stockwater of 150 cattle and Irrigation of 30 acres
65-13905	Spring	Moores Creek	Domestic use for 1 home
65-13986	Groundwater	NA	Irrigation of 132 acres

There are two other rights in Gem county that we hoped to do as well. It appears that it would be easy for us to swing by and take a look at the systems on our way back from Cascade. If we can locate the springs and troughs easily, Sandy and I are comfortable conducting the field examination without your presence. We'll be taking information/measurements of the system; pipe size, length, type, trough size, # of cattle, characteristics of the spring, etc. Here are those rights:

Permit #	Source of Water	Tributary	Beneficial Use as Permitted
65-22707	Spring	Sinks	Stockwater of 150 cattle and 30 horses
65-23115	Spring	Sinks	Stockwater of 150 cattle and 30 horses

Thanks for following up and we are looking forward to Monday. Please let me know if you have any questions; I will have my cell phone with me and that # is 353-5337. Is there I can you reach you on Monday morning just in case we needed to contact you?

Cherie

Dear Cherie,
I look forward to seeing you in the field on Monday at 11am.

DEPARTMENT OF
WATER RESOURCES

We propose putting a 2" valve (turn on/off) on extant outlet at spring and another on well outlet, ^{on} before Sept 10, 201, in accordance with hearing requirement.

Change of plans re Joan Pancheri in blue.
