Re: Water Right Permit No. 63-12552

Dear Jeff:

I write with regard to Water Right Permit No. 63-12552 owned by the City of Kuna, Idaho (City). Under cover of this letter I transmit the following documents:

- 1) Statement of Completion For Submitting Proof of Beneficial Use (IDWR Form No. 217) signed by the City's Public Works Director, Gordon N. Law, P.E.
- 2) A Proof of Beneficial Use Licensing Examination completed by me in my capacity as a Certified Water Right Examiner 10-125.

The City of Kuna is intending to submit licensing examinations and proof due forms for all of its outstanding permits in the very near future in hopes of filing a comprehensive transfer application for all of its post 1987 water rights to bring them into line with the City's recent SRBA decrees. To that end, it is our hope that the licensing examinations can be processed relatively soon. We are, however, aware of the State's current budget crunch and the Department's staffing cuts. With those in mind, the City has prepared a detailed and complete submittal in hopes of keeping staff review time and further requests for information to a minimum.

Please send all correspondence with respect to this Permit through my office at the above address and feel free to call on me with any questions the Department may have.

Respectfully,

Ed Squires

c: Gordon N. Law, P.E., City of Kuna Public Works Director
