

Sagehen Flat Spring - 74-15579

IDWR requiring measuring devise and fish screen

This does not apply due to the following:

- This is an upland spring isolated from the nearest perennial stream (McDevitt Creek) with a base flow of approximately 0.05 cfs.
- No fish are found in this isolate spring system
- No measuring device is needed since it does not flow surface water to McDevitt Creek

Conditions of Approval:

1.	071	The use authorized under this right shall not exceed 13,000 gallons per day.
2.	X02	Stockwater use is for 400 range cattle.
3.		Source known locally as Sagehen Flat Spring.
4.	R05	Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 74.
5.	01P	Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
6.	029	Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.
7.	R37	This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
