RE: Water Right Permit No. 75-7446 and 75-07645

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permits have been developed differently than described on your permits. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, your permits must be amended to depict your water uses as they were actually developed.

Based on the examiner's reports, the following elements were developed differently than described on your permits:

☒ Point(s) of Diversion (75-7446 and 75-7645)

☒ Place of Use (75-7446)

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with the \$100.00 each filing fee (**\$200 total**) within 30 days.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Palmer, Sr. Water Resource Agent
Water Allocation Bureau
