	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
03N 18E 29	X	X		X													

CONDITIONS OF APPROVAL

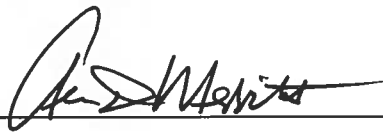

1. Proof of application of water to beneficial use shall be submitted on or before **November 01, 2012**.
2. Subject to all prior water rights.
3. Domestic use is for 62 residential connections including 48 homes, 12 community housing units, and 2 apartments associated with a rural fire station.
4. The irrigation occurring under this domestic use is supplemental to the use of surface water right 37-22657. This supplemental irrigation shall not exceed 1/2 acre within each platted subdivision lot upon which a home has been constructed. This right does not provide for irrigation of common areas or for irrigation of lots upon which homes have not been constructed. When this right is combined with the use of surface water for irrigation under 37-22657, no more than a total of 18.4 acres shall be irrigated.

State of Idaho

Amendment of Permit

NO. 37-21337

5. The right holder shall make full beneficial use of right 37-22657 and all other surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
6. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home/residence.
7. The right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted. This right is subject to the Upper Wood Rivers Water Measurement District created by order dated September 21, 2011 and the measurement shall be in conformance to the order.
8. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
9. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
10. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
11. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of the original permit approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.

This amendment of permit is issued pursuant to the provisions of Section 42-211, Idaho Code. Witness the signature of the Director, affixed at Boise, this 14th day of December, 2011.

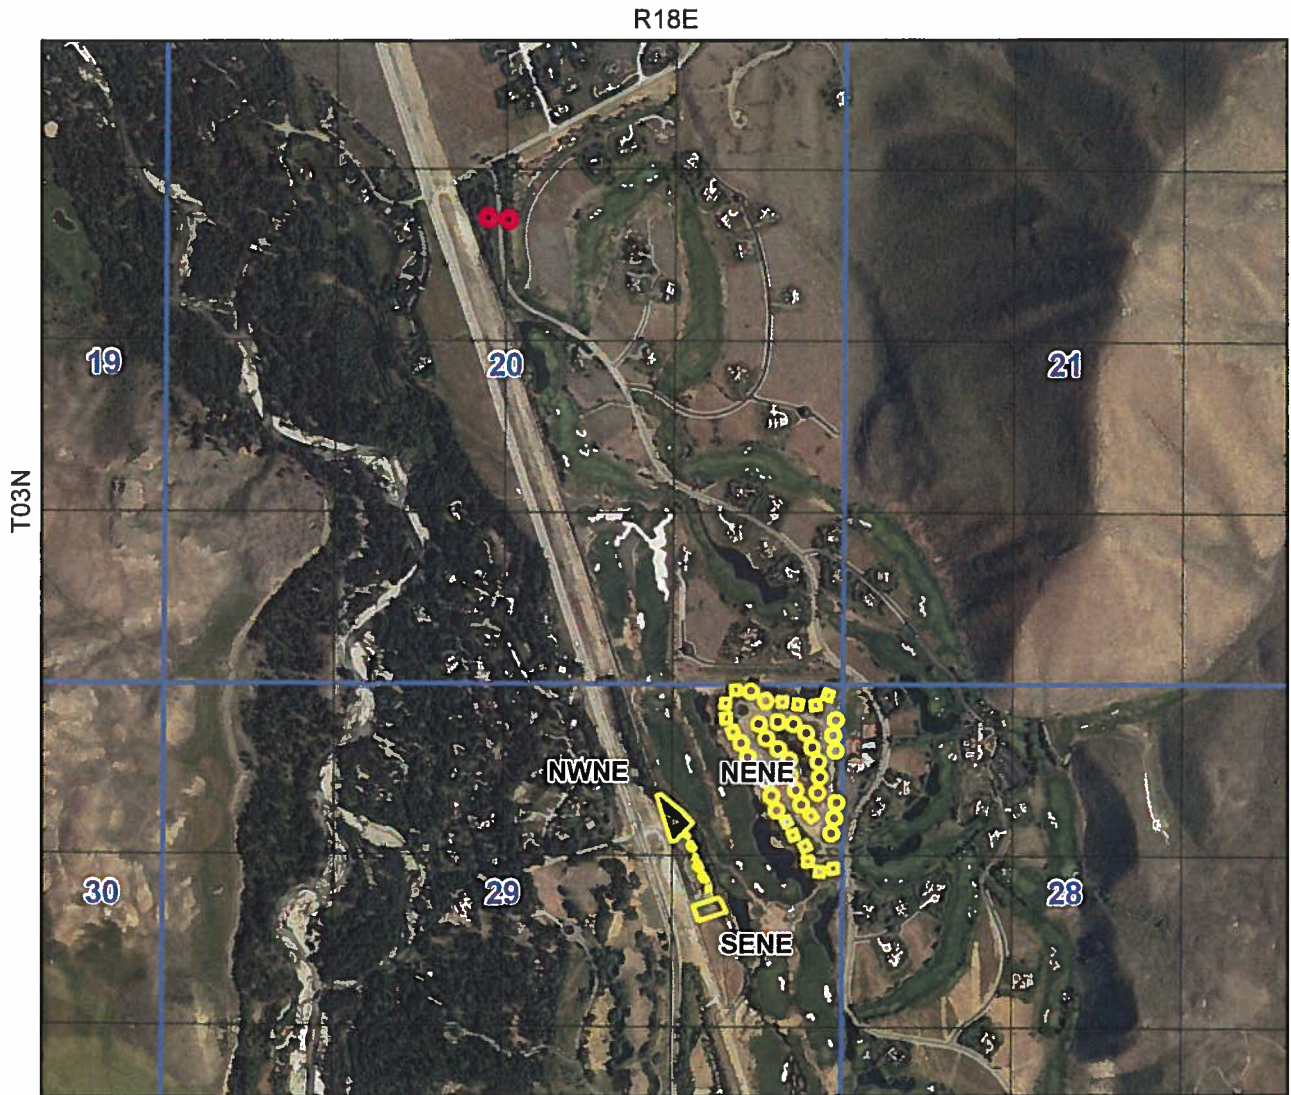

For GARY SPACKMAN, Interim Director

State of Idaho
Department of Water Resources
