RE: Ownership change

Dear Interested Party

The Department of Water Resources is in receipt of an assignment of permit for permit no. 75-7524. The Department is not able to process this document as the statutory fee of \$25 was not included. Also, the permit holders for this permit are Jerry L. McMillan and Christine G. McMillan. The assignment is from Christine Smith to Jason Roylance. There is also another name listed but it is not clear if this is another new owner.

Permits are considered the personal property of the permit holder. Each permit holder will need to assign their interest in the permit(s) to the new owner(s).

While reviewing the permit file, I discovered an unprocessed notice of change in water right ownership which was received on October 26, 2005. It looks like the adjudication claim (no 75-93D) was updated and the three listed water right permits (75-7427, 75-7524, and 75-7419) were not. Permit no. 75-7419 was previously voided as no development occurred. The ownership change request for permit nos. 75-7427 and 75-7524 should have been returned as an assignment of permit was required and the statutory fee of \$25 was not received.

In order to complete the assignment of permit, the fee of \$25 is required for each permit and each assignment. It appears that an assignment of permit from Jerry L. McMillan to Christine G. Smith is required as well. I am enclosing water permit reports for permit nos. 75-7524 and 75-7427, a copy of the notice of change in water right ownership submitted in 2005 and a copy of the assignment of permit which was received on August 12, 2010, and a blank assignment form for your use.

If you have any questions, please call me at 208-287-4952.

Sincerely,

Emalee Rushing,
Office Services Supervisor
