Fred:

RE: Correction of POU for License 36-08761

I agree with IDWR in that the License should describe the Place of Use in the following legal land descriptions:

T09S, R15E, S10	Lot1 NENE (private)
	Lot 9 SENE (private)
T09S, R15E, S11	Lot 11 SWNW (private)

I located Idaho Power's facility on Arc GIS and confirmed that T09S, R15E was the correct location. It appears that the error was the result of a clerical error.

Subject: Correction to POU for License 36-8761

Hey Fred,

This is just a follow up to my voice mail.

In short, it looks like we made a typo in the "Range" for the POU description for license 36-8761.

The permit described the POU as being located in:

T9S, **R15E**, S10

Lot 1 (NE¹/₄NE¹/₄)

Lot 9 (SE¹/₄NE¹/₄)

T9S, **R15E**, S11

Lot 11 (SW¹/₄NW¹/₄)

The field exam confirmed the permitted place of use. However, at licensing the range somehow got changed to R11E. So the licensed POU is described as:

T9S, R11E, S10

Lot 1 (NE¹/₄NE¹/₄)

Lot 9 (SE¹/₄NE¹/₄)

T9S, R11E, S11

Lot 11 (SW¹/₄NW¹/₄)

The water right holder has requested that the Department correct this error. After reviewing the file, the Department agrees that it is a simple error, but because the erroneous POU description actually describes BLM land, we wanted to check with you to see if you had any reservations.

Thanks,

Craig
