RE: Change of Ownership for Water Rights 36-7340 and 36-7542

Dear Mr. Gillette:

The department received a Notice of Change in Water Right Ownership from you in 2006. There was a missing link in the chain of title that kept us from processing your notice. I contacted Minidoka County and was able to obtain a copy of the quit claim deed recorded as instrument no. 411464 which completed the chain of title. The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

While comparing the deeds to the place of use for the water right, I found that water right 36-12818 is also appurtenant to your property. I have enclosed a copy of the water right report for that right. If you'd like to add that water right to your notice, please submit the \$25 fee and I will add that right to the notice you previously submitted.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Emalee Rushing
Office Services Supervisor
