Re: Well Drilling Fee for Water Permit No. 63-12426

Dear Mr. Gramling:

Today I conducted a field exam for your domestic and irrigation well used for Permit 63-12426. The purpose of the exam is to issue a water license based on development authorized and completed under your permit.

One additional step is required before a license can be issued. This concerns the well drilling fee originally paid for your well in 1991. The well was drilled as a domestic well with a \$35 drilling fee. The use of a domestic well for irrigation requires the drilling fee upgrade from the domestic category to the \$200 irrigation level.

Research confirms this upgrade was requested from the original applicant (Ainsworth) but not paid. To avoid jeopardizing the potential license for your property, please remit \$165 payable to the Idaho Department of Water Resources (IDWR) within the next thirty days.

Please contact me at 334-2190 if you have any questions. Thank you for your prompt attention to this matter.

Sincerely,

Steve Lester
Water Rights Supervisor
