

## MEMORANDUM

Date: September 15, 2011  
To: Transfer 77474 File  
From: Jana Reeder  
Re: Evaluation of Sufficiency of Information Submitted

---

Transfer proposes converting the domestic portion of a ground water right to commercial use for an RV Park located in Stanley to the north and west of HWY 21 and 75 intersection. Transfer will also change place of use and points of diversion descriptions to record actual locations. Three existing wells 12, 17, and 19 will divert 0.38 cfs and 15.1 AF to commercial uses associated with a restaurant, hotel and RV Park.

Note, the forfeiture box was checked on the application because the home associated with the domestic component of water right 71-7109 was demolished in 1991 and the well was abandoned. Aerial photography show trailer homes with what appears to be irrigation around them from various years and the applicant's verified the domestic use was always utilized from another well after Well No. 16 was abandoned. (see attached email dated 9/27/2011)

During review several overlaps 71-7107, 71-7108 and 71-7143 were discovered and their nominal shapes have been updated to reflect actual places of use.

- **Authority to File:**  
The applicant is listed as current owner of the right being transferred according to IDWR records.
- **Water Right Validity:**  
Water right 71-7109 was licensed on 2/26/1991. Aerial photography show trailer homes with what appears to be irrigation around them from various years and the applicant's verified the domestic use was always utilized from another well after Well No. 16 was abandoned.
- **Injury to Other Water Rights:**  
None anticipated.
- **Enlargement of Use:**  
None anticipated.
- **Local Public Interest:**  
Application will be subject to public notice and protest
- **Beneficial Use/Conservation of Water Resources:**  
Proposed use is recognized as a beneficial use of water.

**Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.**
