CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **January 01, 2017**.
2. Subject to all prior water rights.
3. The two (2) ponds established by the storage of water under this right shall not exceed a total capacity of 11.4 acre-feet or a total surface area of 4.4 acres.
4. Rights 13-697A and 13-698 authorize the diversion of an annual total of 7.0 acre-feet to be used for the initial filling of pond 2 and for the evaporation losses of pond 1 and pond 2. Pond 1 is an irrigation regulation pond.
5. Rights 13-697A and 13-698 mitigate for the depletion of water caused by the diversion and use of water under Right 13-7783. To prevent injury to other water rights, the right holder shall cease diverting water under the mitigation portion of Rights 13-697A and 13-698, which shall remain un-diverted.

Department of Water Resources
Permit to Appropriate Water

NO. 13-07783

6. If Rights 13-697A and 13-698, or a portion thereof, are sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under Right 13-7783 shall be reduced by the same proportion as the reduction to Rights 13-697A and 13-698.
7. Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
8. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 13-S.
9. This right does not grant any right-of-way or easement across the land of another.
10. Noncompliance with any condition of this right, including the requirement for mitigation, is cause for the director to issue a notice of violation, cancel or revoke the right, or, if the right is included in a water district, request that the watermaster curtail diversion and use of water.
11. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 9th day of December, 2011.

for GARY SPACKMAN, Interim Director
