SUBJECT: Telford Lands LLC Water Supply Bank Rental Application Telephone Conversation

I spoke with Rob Harris who spoke with his client, and they agreed to hold off on adding the Mark Well in T3N R26E S12 NWNWNW until an acceptable field exam is completed. Mr. Harris asked us to move forward with approval of the rental application without the Mark Well. We can add this well once we receive an acceptable field exam. Mr. Harris stated he had an independent field examiner that may be able to perform the examination. I made a point to express that if an independent field examiner is used, the field exam will need to be reviewed to determine that it is acceptable.
