

MEMORANDUM

TO: Exams 63-12527 and 63-33266

FROM: Kay Walker

RE: Phone conversation

Date: November 26, 2010

.....

Mr. Sellin called the office on November 24th and stated that he had information to show that he had used the water under his irrigation use beneficially. He said he had the field disked and harrowed and had a receipt to show this was done. He also said that he had planted the fields with pasture grass seed but did not "kill off" the natural stuff so it had come up and grown as it would have naturally. He will send in his documentation to prove his b/u of irrigation use.
