IDAHO DEPARTMENT OF WATER RESOURCES
Water Right Report 35-11661

Conditions of Approval:

1. T07 The right holder shall accomplish the change authorized by this transfer within two years of the date of this approval.
2. T18 Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
3. X01 Domestic use is for 1 home.
4. 067 The right holder shall record the quantity of water diverted and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
5. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. X27 This right is limited to the irrigation of 38 acres within the place of use described above in a single irrigation season.
7. N10 The quantity of water decreed for this water right for domestic use is not a determination of historical beneficial use.
8. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
9. 065 The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
10. N12 The quantity of water under this right for domestic use shall not exceed 13,000 gallons per day.
11. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
12. 105 If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
13. 131 Prior to the diversion and use of water under Transfer approval 71377, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
14. WB4 The total instantaneous diversion of water from all points of diversion under Right 35-11661 shall not exceed 0.80 cfs, nor a total combined annual volume of 152 af.
15. E02 Use of this right is combined with water from Aberdeen Springfield Canal Co.
16. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
17. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
