RE: Application for Permit 15-7346

Mr. Gunnell:

The Department is in the process of completing your permit for the use of irrigation water; during the final review a discrepancy was found.

According to the map you submitted with your application there is irrigated acres in Sec 26 of the SWNE and NWSE quarters. However, the application that was submitted does not list acreage in these areas.

If you do have acres that you plan on irrigating in these areas, please change your application and submit \$50.00 to cover re-advertising fees.

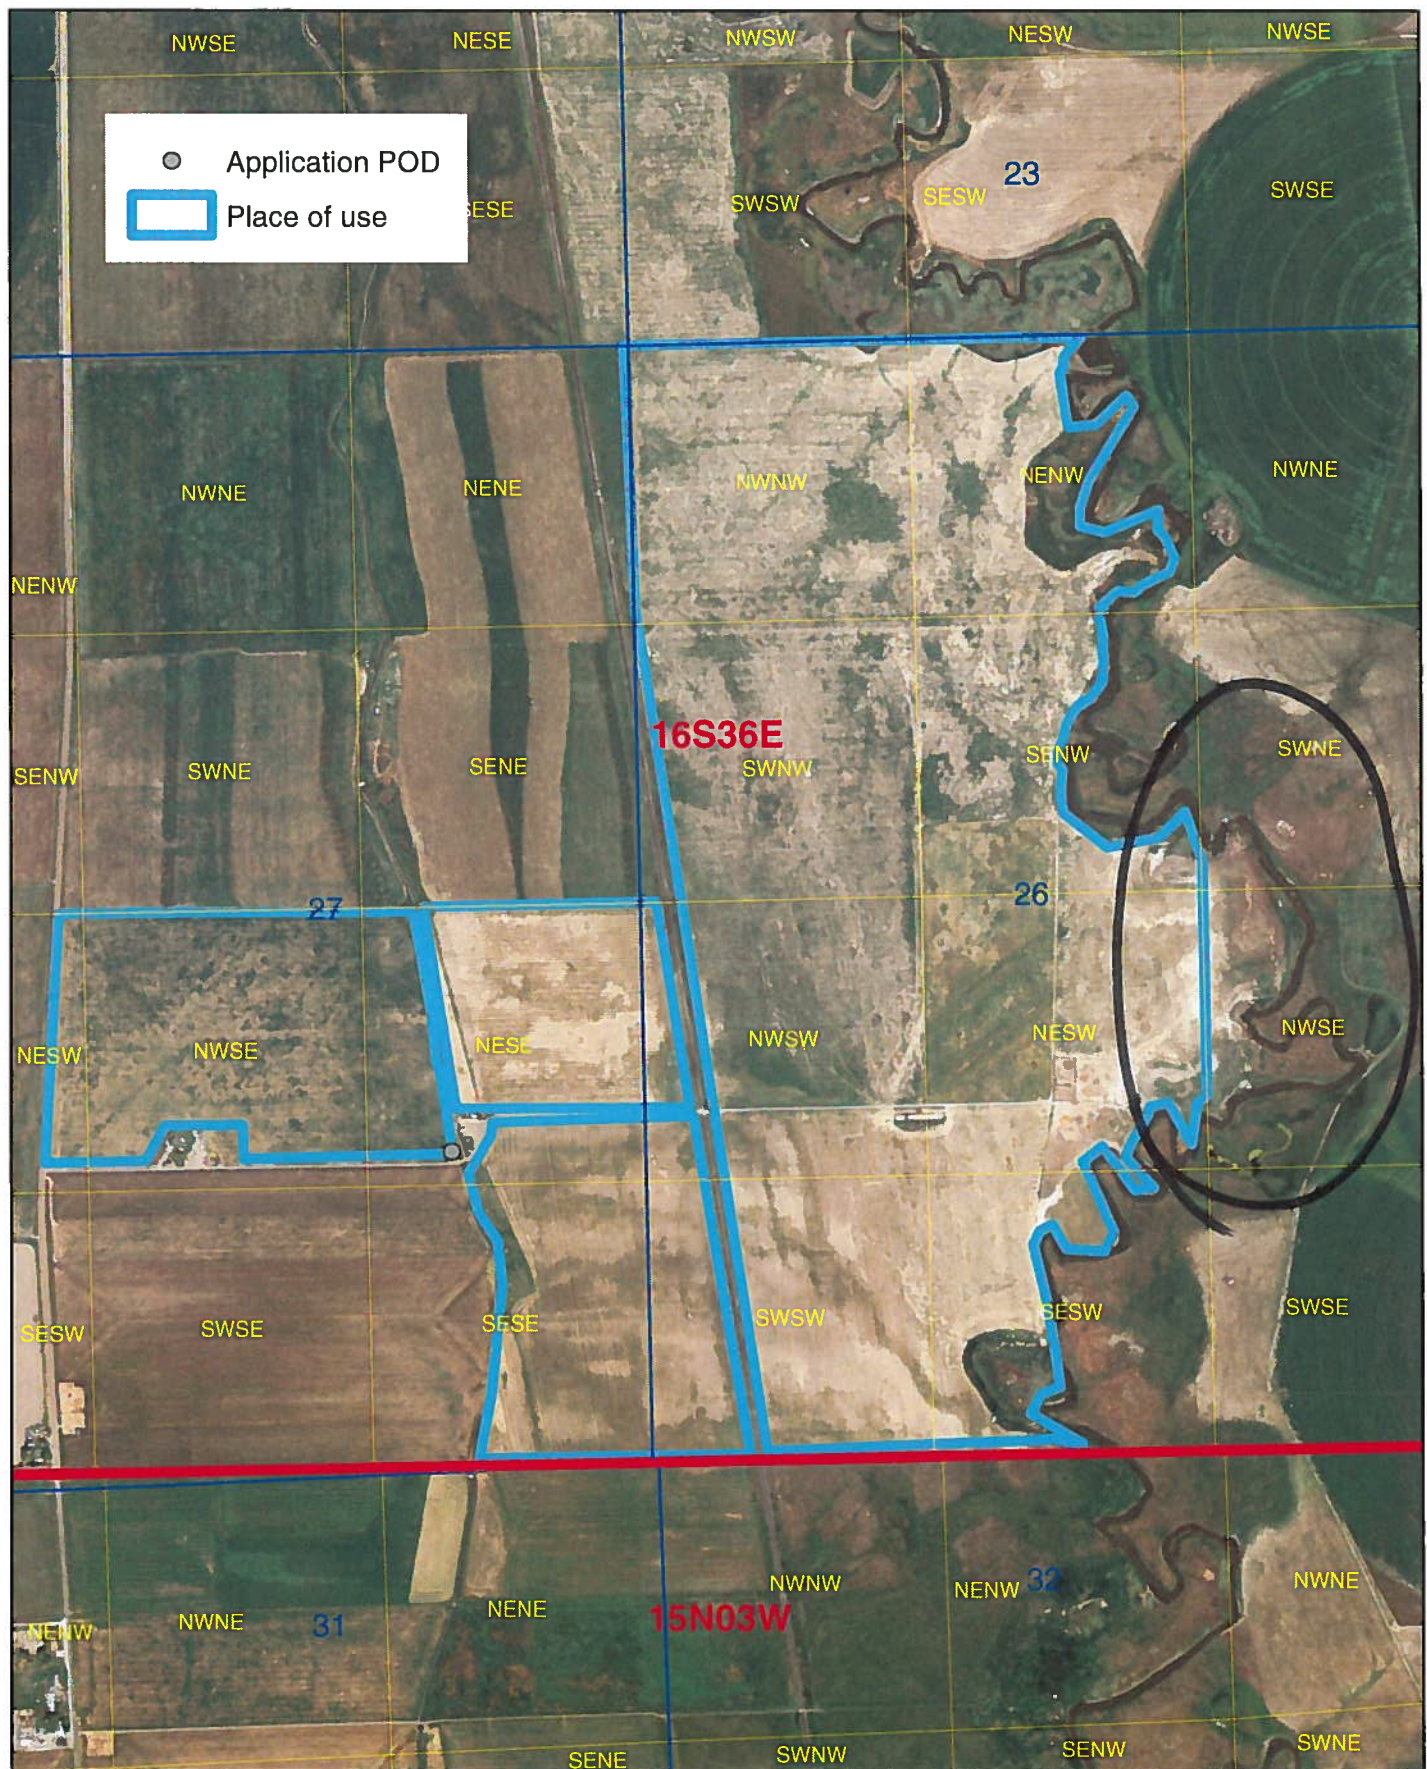

If you have any questions please let me know.

Sincerely,

Kerrie Mathews
Water Resource Agent

Enclosure: Application, Map submitted with application, and map based on acreage depicted on application.

10/26/2011 - talked to Paul Gunnell on the telephone
regarding this letter.
The acreage in question
is marginal and will not
be irrigated with well H₂O. Leave application as it
is and continue processing. KM.

Gunnel - Map based on written part of application
