Attachments: Black Mountain Spring Transfer; App for Transfer 32-10197.pdf

Kerrie,

You area absolutely correct. 32-10197 is correct and 32-10229 is incorrect.

I've made the change on the application, however I cannot send just one page so I'm sending the entire 'package' as is accessible on the IDWR site. If you would like you could simply replace the one page with the error and discard the other pages in the attachment.

Thanks for catching that. It was my mistake.

If there is anything else I need to do please let me know.

Thank you.

Good Morning Steve;

The Department has received your application for transfer. While reviewing the transfer an inconsistency was found. On page two of the transfer application water right 32-10229 is listed, however on the included map water right 32-10197 is referenced.

I believe the correct water right number is the 32-10197 –Black Mountain and 32-10229 – Keg Springs, is incorrect. Would you please take a moment and verify that water right 32-10197 is correct.

Thank you,

Kerrie A Mathews
