RE: Application for Transfer No. 45-2553

Dear Mr. Baker:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office will be advertising the application in the South Idaho Press on 9/3 and 9/10/87. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Re: Loan No. 204237 2 (0252) - Wade Baker
Water License 45-2451, 45-2553

Dear Wade and Afton:

I met with Jim Johnson at the State Office of the Water Resources Department and discussed at length the various alternatives available to The Travelers and Bakers to resolve the transfer of the above referenced license. As a follow-up, I discussed your situation with Allen Merritt in Twin Falls. The facts as I see them are as follows:

1. License No. 45-2451 covers the S 1/2 of Section 30 and the SW 1/4 of Section 29, or 320 acres. The licensed amount is 6.0 cfs. According to the license, the point of diversion is a well in the NW 1/4 NE 1/4 of Section 31. In reality, the place of use covered by this license is serviced by a well located in the SE 1/4 SE 1/4 of Section 30.
2. License No. 45-2553 covers your home place in Sections 31 and 36, or approximately 360 acres. The licensed amount is 5.92 cfs. According to the license, the point of diversion is a well located in the NW 1/4 SE 1/4 of Section 36. In reality, the place of use covered by this license is serviced by a well located in the NW 1/4 NE 1/4 of Section 31.

If the information stated above is correct it would seem that the issue that needs to be resolved is the point of diversion and not the place of use. The proposal set forth by Allen Merritt, to change the points of diversion to correspond to the present use, by far makes the most sense. It would be my recommendation that we proceed along the lines proposed by Mr. Merritt.

If you have any questions or comments regarding this information, please do not hesitate to contact this office. It would appear that if we proceed with this proposal, The Travelers would only need to consent to the change in the point of diversion.

MEMORANDUM

RE: Permit Nos. G-22465, G-24196, G-27021
Wade Baker, Burley, Idaho

CARL E. TAPPAN
State Reclamation Engineer

Reclamation Department records show that Wade Baker, Burley, Idaho holds the above Permits to Appropriate Subterranean Water. These permits have been licensed as follows:

Permit No.	Amount	Priority Date
G-22465	3.60 c.f.s.	Nov. 14, 1951
G-24196	6.00 c.f.s.	June 2, 1953
G-27021	5.92 c.f.s.	August 1, 1957

Water from the well under Permit G-22465 is used to irrigate 263 acres, which Mr. Baker has sold to the L. D. S. Church. Permit has not been assigned. This well reported to discharge 3.40 c.f.s. at draw-down of 420 feet. Equipment, as of March 27, 1964: U. S. Motor, 250 HP, Serial No. 917425; Pump, Peerless, Serial No. 154066. This is the same equipment listed in Engineers Report when examined for license on 14 July, 1954.

Equipment on well under Permit G-24196, listed as of 14 July, 1954, date of examination for license was U. S. Motor, 250 HP, Serial 956850; Pump, Fairbanks Morse, Serial No. PR4007. This is the same equipment listed as of March 27, 1964. The reported discharge is 4.50 c.f.s. and is used in conjunction with two other wells, one with permit and licensed, and one without permit, to irrigate 696.5 acres owned by Mr. Baker.

Equipment of well under Permit G-27021, as of 9 May, 1961 was U. S. Motor, 250HP, Serial No. 1228585; Pump, Floway, no Serial No. given. This well equipped as of March 27, 1964 with U. S. Motor, 200 HP, Serial No. 1289902, Floway Pump, Model No. 61-2231, No Serial No. reported; discharge 3.00 - 3.20 c.f.s., supplemental irrigation for 696.5 acres.

Equipment on the well with no permit located in the SE1/4, Sec. 30, T. 11 S., R. 23 E., B.M., as of March 27, 1964 was U. S. Motor, 250 HP, Serial No. 122805; Floway Pump, Model 61-2231, No. Serial No. Reported discharge 5.40 c.f.s., supplemental irrigation for 696.4 acres.

27021

The above equipment list indicates that at least the 250 HP Motor was moved from the well under Permit G-27021 to the well without a permit, and that a smaller 200 HP Motor was installed and used in the well, Permit G-27021. This well has not been abandoned as indicated in a conversation with Mr. Baker in August, 1963.

Further questioning of Mr. Baker on March 27, 1964, he stated that the amount of water he was obtaining from wells G-24196 and G-27021 was not sufficient to irrigate his land. To obtain sufficient water he drilled a well without a permit in the late winter and spring of 1962-63 in the SE1/4, Sec. 30, T. 11 S., R. 23 E., B.M., equipped and used this well to obtain additional water during the 1963 irrigation season. From all indications he will again pump this well during the 1964 irrigation season.

The total water from these 3 wells is reported to be 650 inches. This is being used on his farm land acreage of 696.5 acres. See attached map.

Our records do not show that Mr. Baker has ever made an application for a permit to use water from the well he has drilled and equipped in the SE1/4, Sec. 30, T. 11 S., R. 23 E., B.M. and since this well is located in a Critical Ground Water Area, this Department could not at the time the well was drilled issue a permit, even if an application had been made for a permit.

The two wells with permits, G-24196 and G-27021, were licensed for 6.00 c.f.s. and 5.92 c.f.s. respectively. These wells are reported to be producing 3.10 c.f.s. and 4.50 c.f.s., or a total of 380 miners inches, compared with a licensed amount of 596 miners inches.

It is recommended that Mr. Baker be allowed to file for a Point of Diversion Change on his Permits G-24196 and G-27021 to include his new well in order to bring his water supply up to his licensed amount of 11.02 c.f.s. or 596 miners inches. If Mr. Baker does not care to do this, legal action should be taken to determine his water rights.

Re: Permit No. G-27021

Mr. Wade Baker
Route #2
Burley, Idaho

Dear Mr. Baker:

Enclosed is Form 20, application for Transfer of Water Right.

The report of the field engineer shows that your well will produce 296 miners inches or 5.92 cubic feet per second of water for irrigation of 360 acres of land in the NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Section 36, T. 11 S., R. 22 E. and NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 31, T. 11 S., R. 23 E.

Water License G-22465 has been issued to you for 3.6 cubic feet per second from a well in SW $\frac{1}{4}$ SE $\frac{1}{4}$ said Section 36 to irrigate 320 acres in E $\frac{1}{2}$, Sec. 36. That provides 114 miners inches to irrigate 180 acres irrigated under Permit G-27021.

The Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (\$24.00, at the rate of \$2.00 for each 40-acre subdivision) for 66 miners inches for land in Section 36 and 180 miners inches for land in Section 31, total 246 miners inches or 4.92 cubic feet per second can be issued.

The permit shows different land to be irrigated and an amendment to the land list is necessary to show irrigation of NE $\frac{1}{4}$, Fr. N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36, T. 11 S., R 22 E and NE $\frac{1}{4}$, Fr. N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 31, T. 11 S., R. 23 E. There is a fee of \$1.00 for recording the amendment.

Kindly remit a total fee of \$30.00 and the signed amendment to the land list and the certificates will be issued as above.

Provided the place of use of the water from the well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 36 is transferred to other lands than the lands described above in Section 36, the total production of the well can be allowed, 5.92 cubic feet per second.

Form 20 is enclosed to be used if you desire to change the place of use of the water under license No. G-22465. Upon receipt of the completed form in this office, a notice will be prepared for publication in two weekly issues of a paper printed in Cassia County. Provided there are no valid protests to the change in place of use, the transfer will be approved upon payment of a fee of \$1.00. The cost of the publication must be paid by the applicant.

Attention: Norman H. Nielson

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27021, in the name of Wade Baker. Final Proof is to be made before you, as Notary on the 6th day of March, 1961, ~~1958~~ at 10:00 o'clock A.M., at Burley, Idaho.

As of this date we have mailed the Notice to the Burley Herald Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-27021

Mr. Wade Baker
Rt. # 2,
Burley, Idaho

Dear Mr. Baker:

We enclose Permit No. G-27021 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

We also enclose departmental receipt No. G-2818 which was issued covering payment in the amount of \$6.50 for the filing fee of the above mentioned permit.

Very truly yours,
