RE: Ownership of License 63-12266

On November 10, 2011, I received a phone call from Diane Miller (697-2804) asking about recently issued license 63-12266. I called her back at 8:30 am on November 14, 2011. Diane told me that the well that supplies the subdivision was bought by the City of Nampa and that she pays the City a yearly fee.

I told Diane that she didn't need to do anything at this point and that I would contact the City of Nampa and let them know that the license was issued and if they had interest in it, they needed to file a change of ownership.
