

MEMORANDUM

Date: August 21, 2008
To: Water Right File 63-10034
From: medl
Re: additional fee

The field examiner found that the system capacity for this water right was 9.36 cfs but the permit holder had submitted an exam fee that limited the license rate to 5.0 cfs. I did not find any evidence in the file that the permit holder had been informed of this rate limitation. I sent a letter advising the permit holder of rate constraint and a potential remedy.
