RE: Water Right No(s): 61-12263

Dear Ms. Baker:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Sherry Borgeman
Administrative Assistant

Re: Application for Permit No. 61-12263

Dear Applicant:

This office received your Application for Permit seeking a water right. Upon review of your application, there are a few areas of the application that need correction or completion. I address in further detail specific areas for correction or completion below. I have enclosed a copy of the original application. Please review the application, make any necessary changes (date and initial any such changes), sign it on the second page and submit it to the Department for further processing.

The areas of your application that need correction or completion are as follows:

- The source of water supply tributary (item no. 2). Aerial imagery suggests the spring proposed for diversion is more than likely tributary to an unnamed stream tributary to Little Canyon Creek rather than simply sinking as the application states. The Department will record this water right permit (if approved) as being tributary to Little Canyon Creek, unless information is provided demonstrating the spring does in fact sink before any water reaches the unnamed stream tributary to Little Canyon Creek.
- The applicant's signature (item no. 13). The application submitted was not signed by the applicant.

Please submit the signed application, with any necessary corrections and/or additional information, to allow for further processing. Your response, or a request for more time to make your response, must be received within thirty (30) days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Angela M. Grimm
