RE: Water Rights 35-2207 & 35-2768

To Whom It May Concern:

In preparation to change how the property is irrigated for this water right, it was discovered that the place of use is shown incorrectly on the Departments GIS shapefile.

The water right lists the place of use as, T04S R32E S32, of the NENE quarter. This is the correct location. However, the shapefile shows acres irrigated within that area which are not. Some of the acres shown as irrigated are actually wetted naturally with subwater.

I am enclosing a map which shows the correct acres that are irrigated. There is no increase or decrease of acreage, only the correct of irrigated acres within the same location.

Would you please update your shapefile records to show the correct irrigated acreage? If you have any questions please let me know.

Sincerely,

A handwritten signature in black ink that reads "Steven B. Adams". The signature is written in a cursive style with a large, sweeping initial "S".

Steven Adams
