

MEMORANDUM

Date: October 27, 2011
To: Water Right File 22-7644
From: cpalmer
Re: Licensing Memo

Permit 22-7644 was not issued with supplemental conditions and was not commented on in the field exam. However, the application has the following comment: "This application has been filed because two wells owned by Del Kunz and the Scheiss Bros. intercept Boquet Spring flow. The well is intended to be supplemental when this happens." To clarify the relationship between the surface water and groundwater I contacted Todd Dustin, Monroe has passed away and Todd is his son who now owns the property. Contact #s for Todd are 313-3649 and 705-2509, address 6099 S 4500W Victor ID 83455.

Todd told me that both surface and ground water provide for all of their property and that they use both rights together. The way they irrigate varies from year to year depending on the availability of the surface water but they usually pump it out to flood irrigate. I told Todd that I would send him ownership change forms and that this right will be licensed as supplemental to surface water.

Overlap Analysis

Water Right	Source	Rate	Volume	Overlapped Acres	Non-Overlapped Acres	Total Acres
22-230A	Boquet Ck	1.56		71	7	78
22-7644	Ground Water	1.44	385	71	39	110
Combined Limits				71	46	117

= 163 acres
