

MEMORANDUM

Date: March 24, 2009

To: Water Right File 72-106J

From: mweaver

Re: Mitigation

This right has been changed to show the mitigation use that was added due to approval of license 72-16625. The shape representing the irrigation place of use have been modified to remove the area of the aesthetic pond, this representing the area that was desiccated for mitigation of the pond. The right holder changed 0.01 CFS of diversion rate and 0.2 acres of irrigated land to compensate for the mitigation use. I also updated the conditional language limiting the number of irrigated acres to 14.1.
