*Subject: Woods No. 3 Owners Association Inc.
Amended Beneficial Use Field Report*

Dear Emalee,

Enclosed on behalf of Woods No. 3 Owners Association Inc. is an Amended Beneficial Use Field Report for permit 63-33136. I recently received additional information regarding the depth of one of the ponds being licensed. This information requires a reduction of the total volume of the ponds, thus reducing the annual volume I am recommending for the water right. Copies of the enclosed documents are being sent to the IDWR Western Region office, as well.

Please let me know if there are any questions or if you need additional information.

Sincerely,

Marci S. Pape
