Re: Supplemental Memo to Cherie Padilla's 8-8-11 *Petition for Reconsideration Evaluation* memo

The place of use for 98-7366 and 98-7829 partially overlap.

98-7366 was licensed with a diversion volume of 1657.9 AFA.

98-7829 proposed to be licensed with a diversion volume of 850.0 AFA

Total diversion volume proposed for the POU described under 98-7366 and 98-7829 is 2507.9 AFA.

The FWS requests 1271 AFA for 98-7829 but does not provide information of how much of the 1271 AFA requested is already accounted for under 98-7366.

There is not sufficient evidence to show that 98-7366 and 98-7829 require a more than 2507.9 AFA

Issue license 98-7829 with diversion volume of 850 AFA
