Re: POU Location

Today, I contacted Patti Mangum (208)476-5647 and mangumslc@cpcinternet.com, and Charlotte Landers (208) 476-4084, who both confirmed that the lots they have within Westwood Terrace Subdivision are not connected to the POD. They purchased additional lots for a buffer around their homes, or for future home sites for their kids.

I also contacted William Crockett (208) 476-4576, and Scott Herzog (208)746-7431, who both said the only individuals hooked up to the POD are Crockett, Herzog, and Burnham. They both confirmed that the Bells are not hooked up to the system. Looking at the 2006 ArcMap imagery, Crockett's house is built almost in the middle or on the line between the 2 lots he owns.

Mrs. Mangum called me back, and said that they have never had any domestic use or irrigation use on either of those 2 lots. The intension is for her kids to someday build on those lots, but they plan on drilling a well for their domestic internal/external use.

Here is a color copy, if that makes it easier to pick things out.

Mrs. Mangum,

Thank you for taking my call. I am currently working on a water right 85-15446 Hoene, and was wondering if you would verify if there has been any domestic internal/external use, and irrigation use from a well on the following lots that I have outlined in bold black.

Thanks,
